KEYERA CAREER OPPORTUNITY

JOURNEYMAN INSULATOR

Rimbey Gas Plant – Central Alberta

COMPETITION NO:	002444
POSTING EXPIRES ON:	May 17, 2019
REPORTING TO:	Maintenance Foreman
ROLE DURATION:	Permanent, Full-time

THE POSITION

Keyera is currently seeking an experienced **Journeyman Insulator** to join our growing Maintenance Team at Rimbey Gas Plant. This exciting role will be responsible for day to day insulation related assignments on plant maintenance and equipment. The individual in this role must have a thorough understanding of asbestos, asbestos abatement and asbestos regulations.

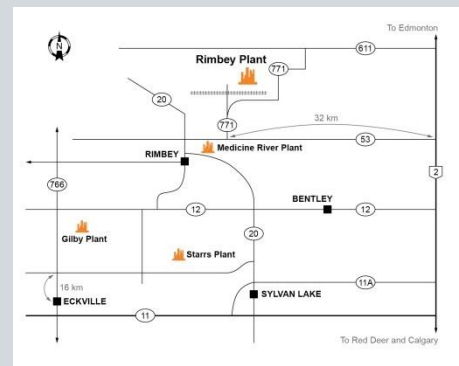

RESPONSIBILITIES

- Maintenance of metal buildings at the facility.
- Coverage of insulation on pipes with cladding and installation of vapor barriers, waterproofing products, and metal protection sheets.
- Read and interpret drawings and specifications to determine insulation requirements.
- Anchoring of insulation with spot welded pins, tie wires, metal bands, screws, and other fasteners.
- Planning and completion of new projects involving insulation
- Read and interpret drawings and specifications to determine insulation requirements.
- Select the amount and type of insulation to be installed as well as a method of securing the insulation (e.g., spraying, pin welding, wiring, pasting, strapping, taping) according to the type and shape of surface, whether or not the equipment is cold or hot, inside or outside, and what the equipment is going to be used for at site.
- Measure and cut insulating material and coverings to the required shape and dimension.
- Fit insulation around obstructions or shape insulation materials and protective coverings.
- Install vapor barriers and finish insulated surfaces by applying metal cladding, canvas, plastic sheeting, cement.

ABOUT THE FACILITY

Located 100 kilometres southwest of the city of Edmonton, the Rimbey gas plant has a capture area in excess of 4,600 square kilometres and offers a full range of gas processing services including gas gathering inlet separation, compression, sour gas processing, NGL extraction, NGL fractionation as well as sulphur recovery.
