KEYERA CAREER OPPORTUNITY

Asset Management and Reliability Inventory Management Specialist

Calgary, Alberta

COMPETITION NO:	12054
POSTING EXPIRES ON:	January 18 2019
REPORTING TO:	Manager, Asset Management & Reliability
ROLE DURATION:	Permanent, Full-time

THE POSITION

Keyera is currently seeking an experienced Asset Management and Reliability Inventory Management Specialist to work within our Asset Management and Reliability (AMR) program.

THE CANDIDATE

- The successful candidate has an extensive Item Master and Inventory Management background supporting operations and projects with a minimum of 10 years related industry and supporting technology experience.
- A proven track record of supporting asset management and reliability inventory management standards, processes, and technology implementation/sustainment across diverse plant and pipeline operations.
- The AMR Inventory Management Specialist is service oriented and relationship builder focused on achieving successful adoption of standardized business practices.
- The AMR Inventory Management Specialist has a proven track record of liaising with Operations, Maintenance, Supply Chain Management, and other stakeholder teams to support asset management and reliability technology, process implementation, sustainment, and master data governance.
- The successful candidate has a solid grasp of asset management and reliability data and technologies (such as Maximo) and supports a practical approach to establishing item master and inventory management governance based on a decentralized model.
- The AMR Inventory Management Specialist has experience working with Project Development and Engineering teams in facilitating the effective transition of commissioning and operating spares to operations and maintenance.

ABOUT KEYERA

Keyera operates an integrated Canadian-based midstream business with extensive interconnected assets and depth of expertise in delivering midstream energy solutions.

We provide essential services to oil and gas producers in the Western Canada Sedimentary Basin including:

- Raw natural gas gathering and processing
- Natural gas liquids (NGL) fractionation, storage, transportation, logistics and marketing services
- Diluent logistics for oil sands customers
- Iso-octane production, logistics and marketing

KEYERA CAREER OPPORTUNITY

QUALIFICATIONS

The successful candidate will be well-organized, energetic, and service oriented with the following qualifications:

- Provide subject matter expertise in working with Operations, Maintenance, Project Development, Engineering, Supply Chain Management (procurement and contracts), and Finance to support the implementation and sustainment of the AMR program Item Master and Inventory Management Initiative.
- Support the establishment and sustainment of a standardized base level data for scalable Item Master and Inventory Management practices, processes, and technology
- Work closely with stakeholders through support and coaching to implement and sustain standardized AMR Inventory Management and Item Master data and technology functional use.
- Develop reporting and key performance indicators to monitor and audit Item Master and Inventory Management and establish a basis for improvement opportunity identification.
- Support the alignment of AMR implementation and sustainment with Operational Excellence Spare Parts and Materials standard.
- Provide functional expertise in the use of technology (such as Maximo) and associated Item Master and Inventory Management throughout the organization.
- With recognition of risk, work closely within the AMR team to support the capture of comprehensive and accurate historical records of parts and materials used during the execution of maintenance work, allowing for effective asset management and reliability decision making.
- Provide support in the definition of Item Master and Inventory Management business requirements for technology functional use and related key performance indicators/reporting.
