

KEYERA

## KEYERA CAREER OPPORTUNITY

### Instrumentation Technologist

Alberta EnviroFuels (AEF)

COMPETITION NO:	25306
POSTING EXPIRES ON:	February 15, 2019
REPORTING TO:	Manager, Maintenance & Reliability
ROLE DURATION:	Temporary, Full-Time (2 year Term)

### THE POSITION

Keyera is currently seeking an Instrumentation Technologist to join the Maintenance & Reliability Team at Alberta EnviroFuels Facility (AEF) in Edmonton, Alberta. This is a 2 year term role that will support our 2020 Turnaround and day to day work in the facility.

### RESPONSIBILITIES

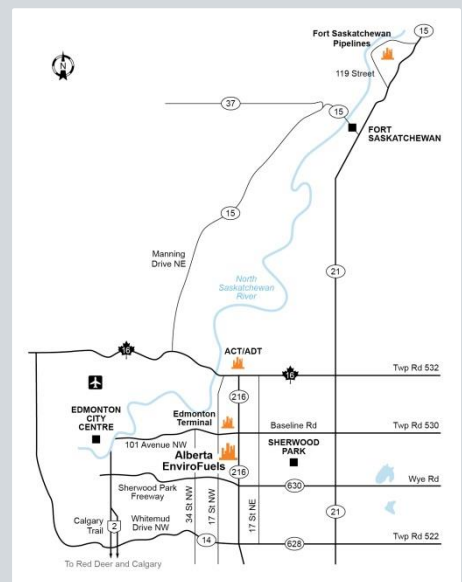

- Maintain instrumentation standards, practices and procedures.
- Responsible for maintaining and programming PLC / DCS, HMI, SCADA, valve operators, instrumentation, meters, flow computers and conducting field inspections to ensure reliable and dependable operations.
- Maintain nuclear radiation program and licensing requirements.
- Complete preventative maintenance within facility.
- Ensure all maintenance is completed to predetermined schedules and meets regulatory requirements.
- Calibrate electronic equipment and instruments when required.
- Process work orders for instrumentation equipment – including gas detectors, transmitters and valves.
- Support maintenance planning and scheduling of activities throughout site.
- Ensure Process Instrumentation System regulatory compliance is maintained.
- Assist in troubleshooting process control issues and support the Management of Change (MOC) process.
- Provide project assistance to Engineering Team that can include design and instrumentation upgrades.
- Work in sync with Operations, Maintenance and Reliability Team through shutdowns, unplanned maintenance and projects.
- Member of the Automation Team.
- Member of the Emergency Response Team.

### ABOUT THE FACILITY

Alberta EnviroFuels (AEF) is the largest iso-octane manufacturing facility in the world. Iso-octane is a high octane gasoline blending component.

The facility produces enough product to fuel approximately 45,000 vehicles per day. Product is sold to refineries for blending into their premium gasolines. Iso-octane is sold to customers in Western Canada and the United States.
